JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

Three bills of health for Panaman ports were viséed, and certificates issued to 52 passengers bound for Colon.

#### CUBA.

*Report from Habana—Inspection and fumigation of vessels—Yellow fever at Daiquiri—Sanitary work at Daiquiri.*

Passed Assistant Surgeon Amesse reports, August 3:

*Week ended August 1.*

Vessels inspected.....	14
Bills of health issued.....	17
Members of crews of outgoing vessels inspected.....	805
Passengers of outgoing vessels inspected.....	498
Certificates of immunity to yellow fever issued.....	20
Vaccination certificates issued for Colon.....	21
Certificates issued to passengers bound for New York.....	126
Certificates issued to passengers bound for southern ports.....	187
Vessels fumigated prior to sailing.....	2

Sanitary conditions in Habana continue satisfactory. The weather is excessively hot and dry.

At Daiquiri, Province of Santiago, where 3 cases of yellow fever remained under treatment at last report, 4 further cases were reported, with 1 death and 4 discharged recovered, leaving 2 cases at the close of the week.

Sanitary squads aggregating 300 men are at work in Daiquiri.

#### *Quarantine against Mexican ports.*

Doctor Amesse further reports:

August 10. Cuba imposed quarantine against Mexican ports August 8. Nonimmune passengers arriving to-day on *Morro Castle* detained Triscornia.

*Report from Santiago—Inspection and fumigation of vessels—Status of yellow fever at Daiquiri.*

Acting Assistant Surgeon Wilson reports, July 28:

Week ended July 25. Bills of health issued to 6 vessels bound for the United States and its dependencies.

Two vessels were fumigated to kill mosquitoes, namely, the Cuban steamship *Julia*, bound for San Juan, P. R., and the British steamship *Bylands*, bound from Daiquiri to Baltimore. Daiquiri being infected with yellow fever, this vessel came in here for fumigation before going to Baltimore. On arriving here it was quarantined by the Cuban authorities and turned over to me for fumigation.

No quarantinable disease was reported in the city during the week.

This morning I sent you a cablegram informing you of 1 death and 1 more case. These are:

(1) J. I. B., taken sick July 23, died July 27; autopsy confirmed diagnosis.

(2) F. E., taken sick July 23; diagnosis confirmed July 26.
